

June 2021 Infortel Cloud Release

Highlights

1. A new status page has been created which will provide the current operational status of Infortel Cloud. Within the page, users can subscribe to the status feed to receive updates in their e-mail. A link has been added to the product dashboard to show status. Alternately, the status can be viewed at <https://status.isi-info.com>.
2. Contact Center dashboard improved performance.
